(updated November 5, 2001)

EU - Japan Collaboration Framework

History of Joint workshop on Protection Profiles and Contact-less Interface

● General Meeting

- **June 1999 in Brussels hosted by European Commission**
 - Topics selection and process to cooperate

● Protection profiles Workshop

- **February 2000 in Tokyo with experts from Eurosmart**
 - Discussion for scenario toward the mutually recognized PPs
- **June 2000 in Marseilles after the European security conference by Eurosmart**
 - Discussion for setting up the mutually recognized PPs
 - Japanese evaluation scheme on smart cards was presented

History of Joint workshop on Protection Profiles and Contact-less Interface (continued)

● Contact-less card interface Workshop

- **October 24, 2000 in Paris at the Cartes 2000**
 - Discussion for implementation standards
 - Report of interoperability tests at a physical level

● Smart Card Security Conference

- **March 29 and 30, 2001 at ANA Hotel in Tokyo**
- **Co-organized by Eurosmart and NMDA with support of ECSEC**

Smart MEIJI/MEJII on Protection Profiles and Contact-less Interface

● Smart MEIJI Project by Eurosmart

- Stands for Mutual European and Japanese Initiative for Interoperability
- An IST financed initiative (Congratulations!)
 - Activities from September 2001 through November 2002 and organization of 4 workshops?

● EU-Japan Collaboration Program by NMDA

- A part of the budget on smart card interoperability with METI in the 2001 fiscal year
- Under negotiation between METI and MOF for the budget of fiscal year 2002

Agreed Items

● Project naming

- **“MEIJI” and “Mutual European and Japanese Initiative for Interoperability”**

● Workshop Schedule (updated)

- **October 24, 2001 in Paris for Contact-less Interface 1**
 - **Reports of implementation standards and interoperability tests**
- **December 13, 2001 in Sophia-Antipolis for Protection Profiles 1**
 - **Discussion for hardware protection profiles (PP9806 & SCVG-PP)**
- **March 11 & 12, 2002 in Tokyo for both topics 2**
 - **Interpretation issue for Protection Profiles: how to reuse evaluation results within an international perspective**
- **June 2002 in Spain for Protection Profiles 3**
 - **Common view on PPs (Japanese PP versus European PPs)**
- **October 2002 in Paris for Contact-less Interface 3**
- **March 2003 in Tokyo for Final Review**

What is “Project on Cities Equipped with Information Technologies” in Japan?

● **Seventeen billion yen project**

- **A part of national IT projects in the supplementary budget of year 2000**

● **More than one million of new generation smart card deployment**

- **For public applications such as residential cards and health-care cards, they will be deployed in 21 areas in Japan.**

● **Development of new generation smart cards**

- **Public Key Infrastructure support and Contact-less Interface**
- **Four types of new generation smart cards will be used.**
