

EUROSMART
European Smart Card Industry Association

eEurope
SmartCards

**Smart Card
Security Conference**
in Tokyo 29-30 March 2001

eEurope

and the role of EUROSMART

Dr.- Ing. Lutz Martiny
Chairman EUROSMART
Co-Chairman eEurope SmartCards
Tokyo, March 29, 2001

- What is Eurosmart
- SmartCards in the eEurope Framework and the role of Eurosmart
- Actions and Events 2000/2001

What is Eurosmart ?

‘The voice of the Smart card Industry’

- An association of European Smart Card players
- Founded in 1994 by pioneer smart card companies
- Committed to expanding smart card markets worldwide

Objectives of Eurosmart

- Promote smart card and smart card systems
- Standardize smart card and smart card systems
- Provide a forum for the interchange of marketing and technical data
- Define a consistent range of quality and security levels
- Build relationship with international and national bodies
- Provide expertise in the smart card area

Members

- | | |
|---------------|------------------------|
| Ascom | Incard |
| Monetel | Infineon |
| ASK | Ingenico |
| Atmel | MCO |
| Bull | Microelectronica |
| Canal+ | Espanola |
| Cybercom | NBS |
| Dassault | NEC |
| DataCard | Oberthur Card Systems |
| ELVA | ORGA |
| Emosyn | Philips Semiconductors |
| FNMT | PPC Card Systems |
| G & D | Sagem |
| Gemplus | Schlumberger |
| Gilles Leroux | STMicroelectronics |
| Hitachi | Xiring |

- **Smart card development and manufacturing**
- **Smart card Integrated Circuits**
- **Industrial Equipment**
- **Smart card accepting devices**
- **Software, Services, Applications**

1st PP Certification in the world

We are proud of:

EUROSMART Actions in 2001

- Improve the work on security and contact less technology inside work
- Co-Chair 
- Strengthen International co-operation through Security Conference in Japan in March 2001
- Initiate and publish reliable market figures for 2000 and projections for 2001
- Organize an international conference on Secure Open Architectures for Smart Cards (Summer 2001)

for actual information follow: <http://www.eurosmart.com>

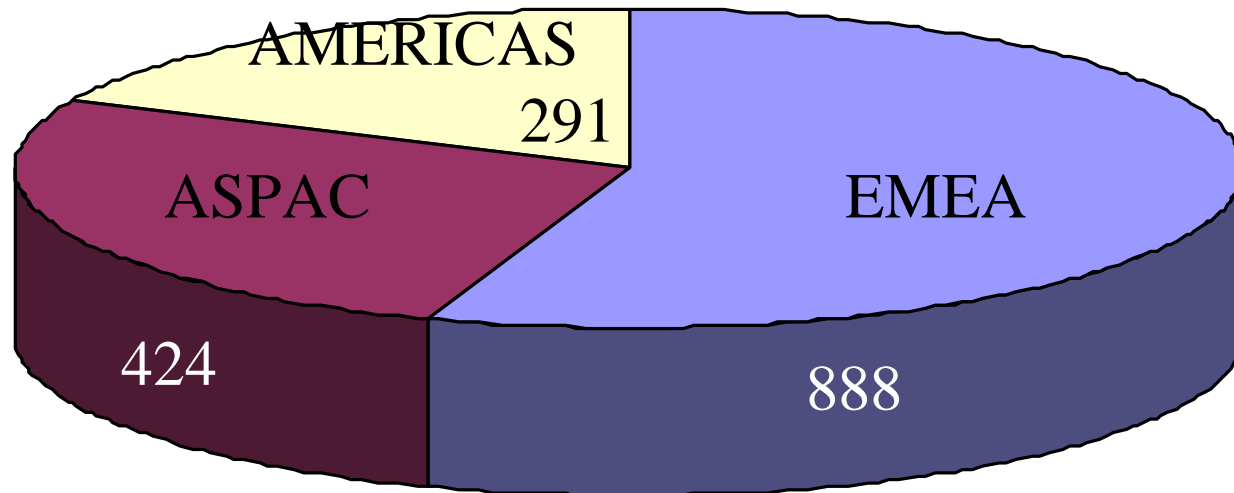

Growth over the past 4 Years

■ Shipments ■ Forecast

	1997	1998	1999	2000	2001
Shipments	900	1154	1429	1603	2015

Geographic Breakdown of Shipments 2000

TOTAL in 2000: 1603 Million units

“An Information Society for all”

Objectives

- Bring every citizen, school, business and administration on-line - quickly!
- Create a digitally literate and entrepreneurial Europe
- Ensure an inclusive information society

1. European youth into the digital age
2. Cheaper Internet access
3. Accelerating e-commerce
4. Fast Internet for researchers and students
5. **Smart cards for secure electronic access**
6. Risk capital for high-tech SMEs
7. eParticipation for the disabled
8. Healthcare online
9. Intelligent transport
10. Government online

Vision

- ❑ To empower the **individual** to **access resources** in the physical world and over networks, anytime, anywhere with adequate privacy and security.
- ❑ To raise the prospect of smart card technology to a **mainstream** computing platform for **trust services**. BY:
- ❑ **Harmonizing** smart card based infrastructures across sectors by building a consensus for minimum **compatibility**.
- ❑ Stimulating inter-sector cooperation to encourage **interoperability**

Action on Smart Cards: Key principles

- User-centric (consumer or professional)
- Industry-led / respect of competitive forces
- **Open to all parties interested
(including global/non-EU players)**
- Focus on secure access to Internet-based services
- ...
- rely on European strengths (banking, health card,..)
- Public sector involved mainly as a lead user for some applications (e.g. transport)

Focus points

The Charter concentrates on 4 target areas:

- Building trust
- Enhancing usability
- Improving access
- Deploying applications & services

Action on Smart Cards:

- Set of minimum security requirements
- Harmonised security certification
- Interoperable specifications for identification and authentication
- Liberalisation of trade and use of cryptographic products and services
- Fair cost conditions when using smart card
- Protection and use of personal data

Enhancing Usability

- Consistency of interfaces and operation
- Coherent use contact and contact-less cards
- Seamless use of multi-application cards and terminals

Action on Smart Cards

Improving Access

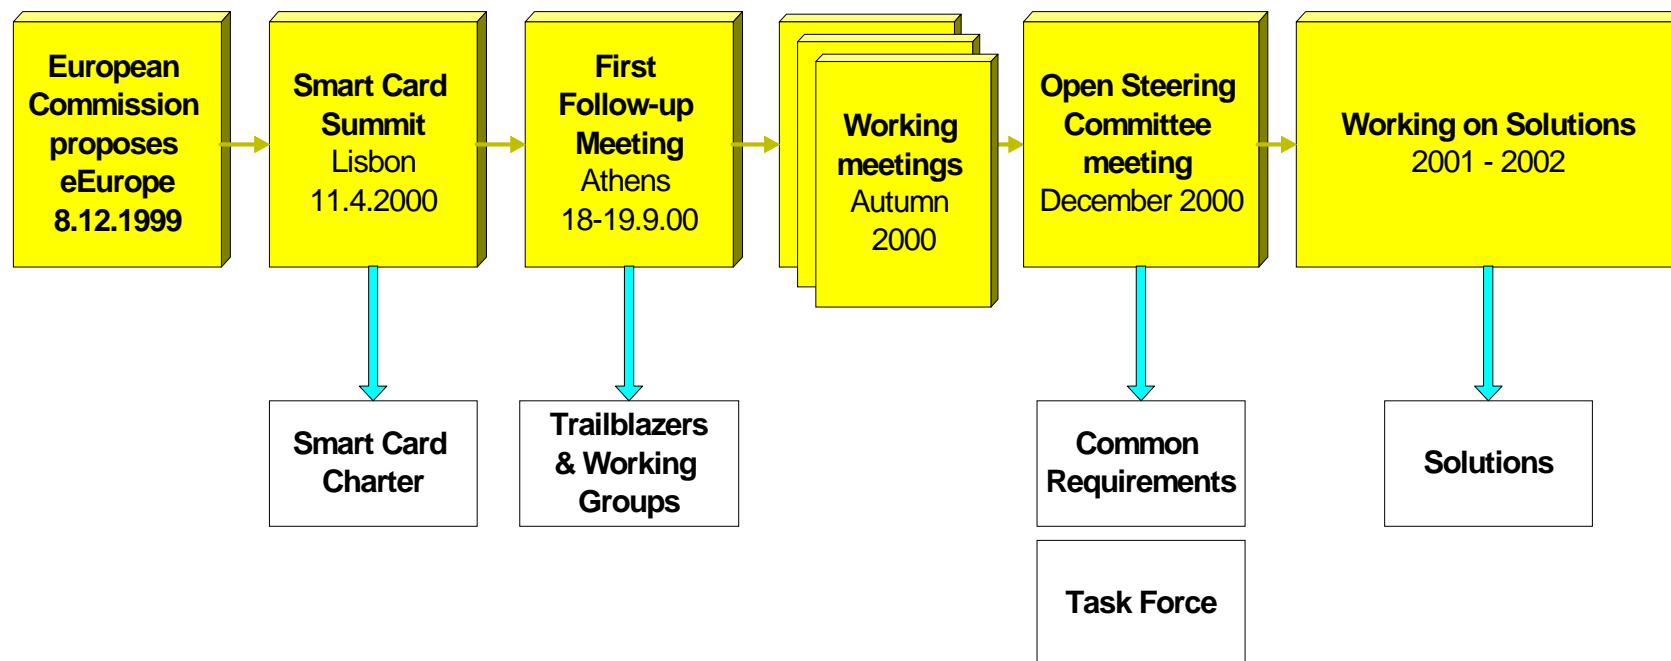

- Broaden service access: geographically and across sectors
- Easy access to Internet
- Permanent dialogue telecoms/service providers to avoid fragmentation of mobile commerce
- Reliable and efficient smart card based e-payments and best use of existing infrastructure

Action on Smart Cards

Deploying Applications & Services

- Foster development of government applications (government on-line)
- Common requirements for major public services starting up with Public Transport and Health
- Exchange of experience regarding electronic identification (e.g. Finland, Italy, Sweden)

Activity program

SCC deliverables

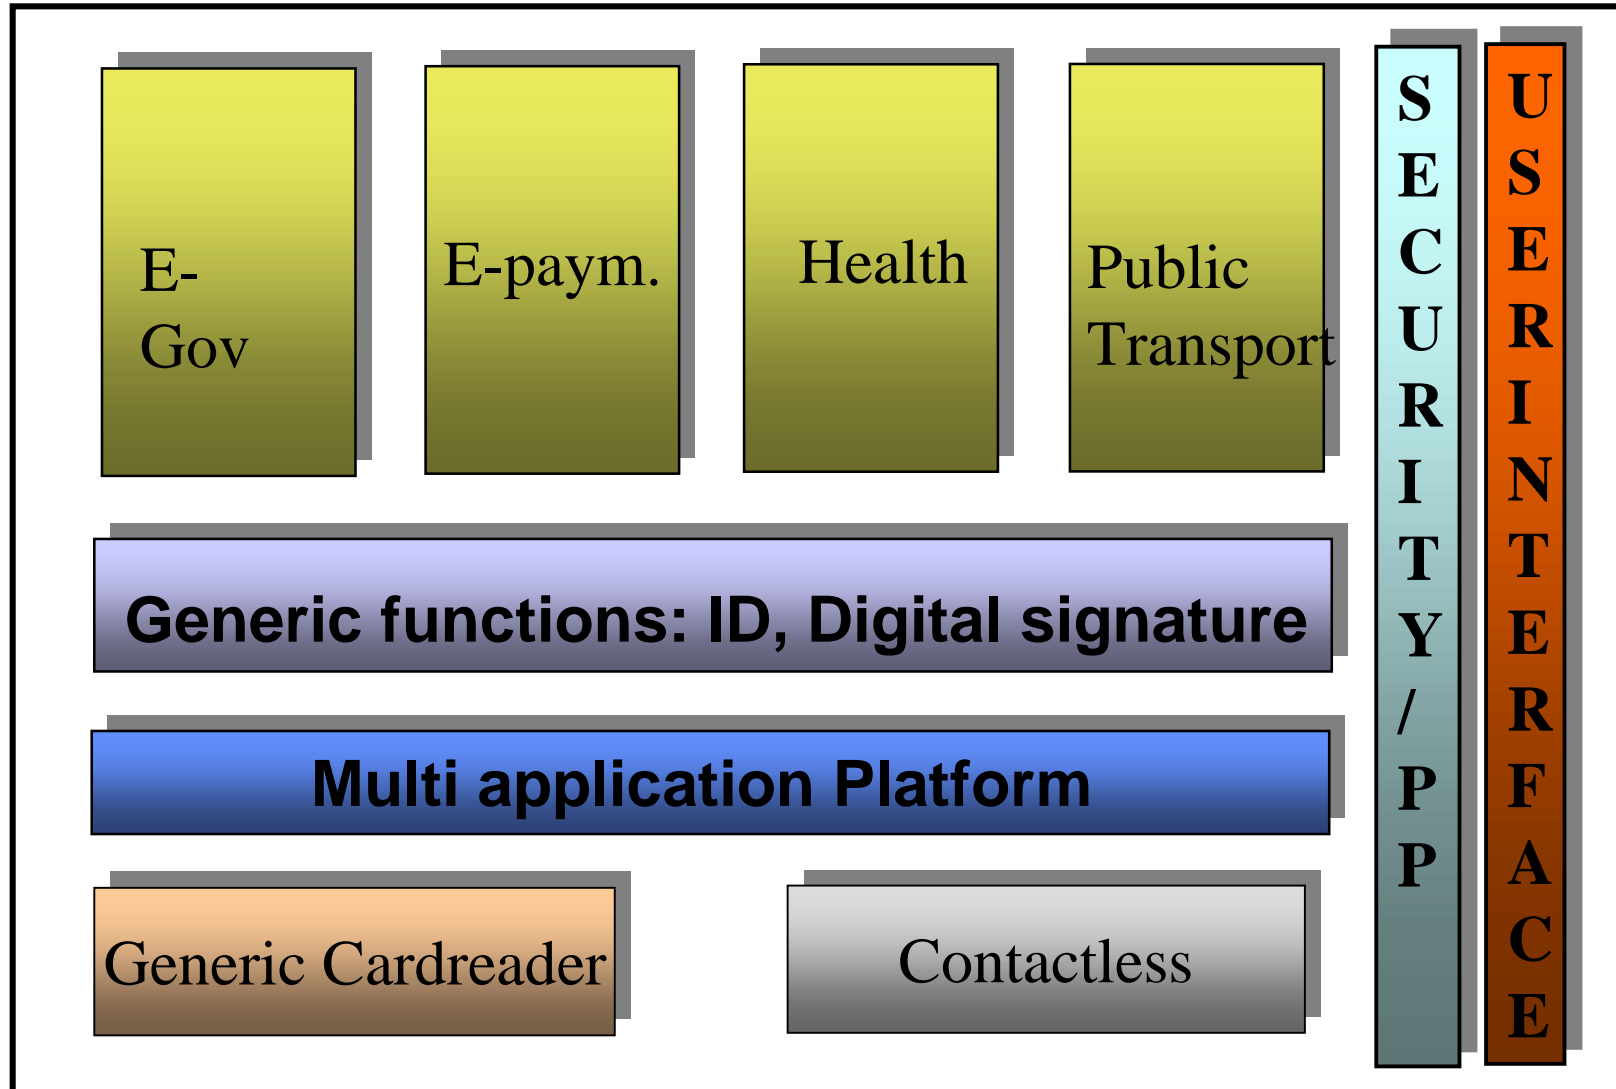

- Common Requirements (established at start of SCC)

- Common Specifications (end 2002 deliverable)
 - Surveys, Reports, White papers
 - Contribution to standards
 - Implementation guidelines
 - Dissemination activities
 - Pilot project(s)
 -

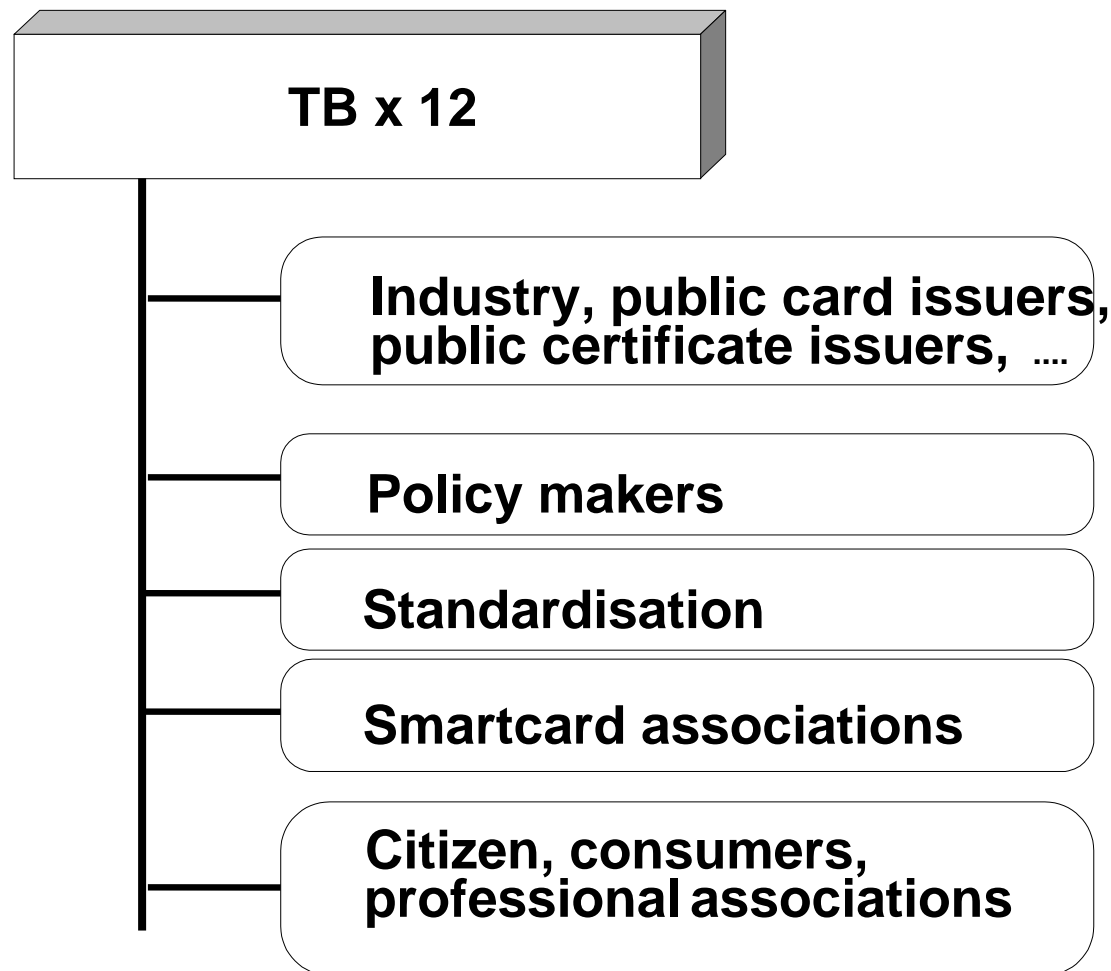

Trailblazers

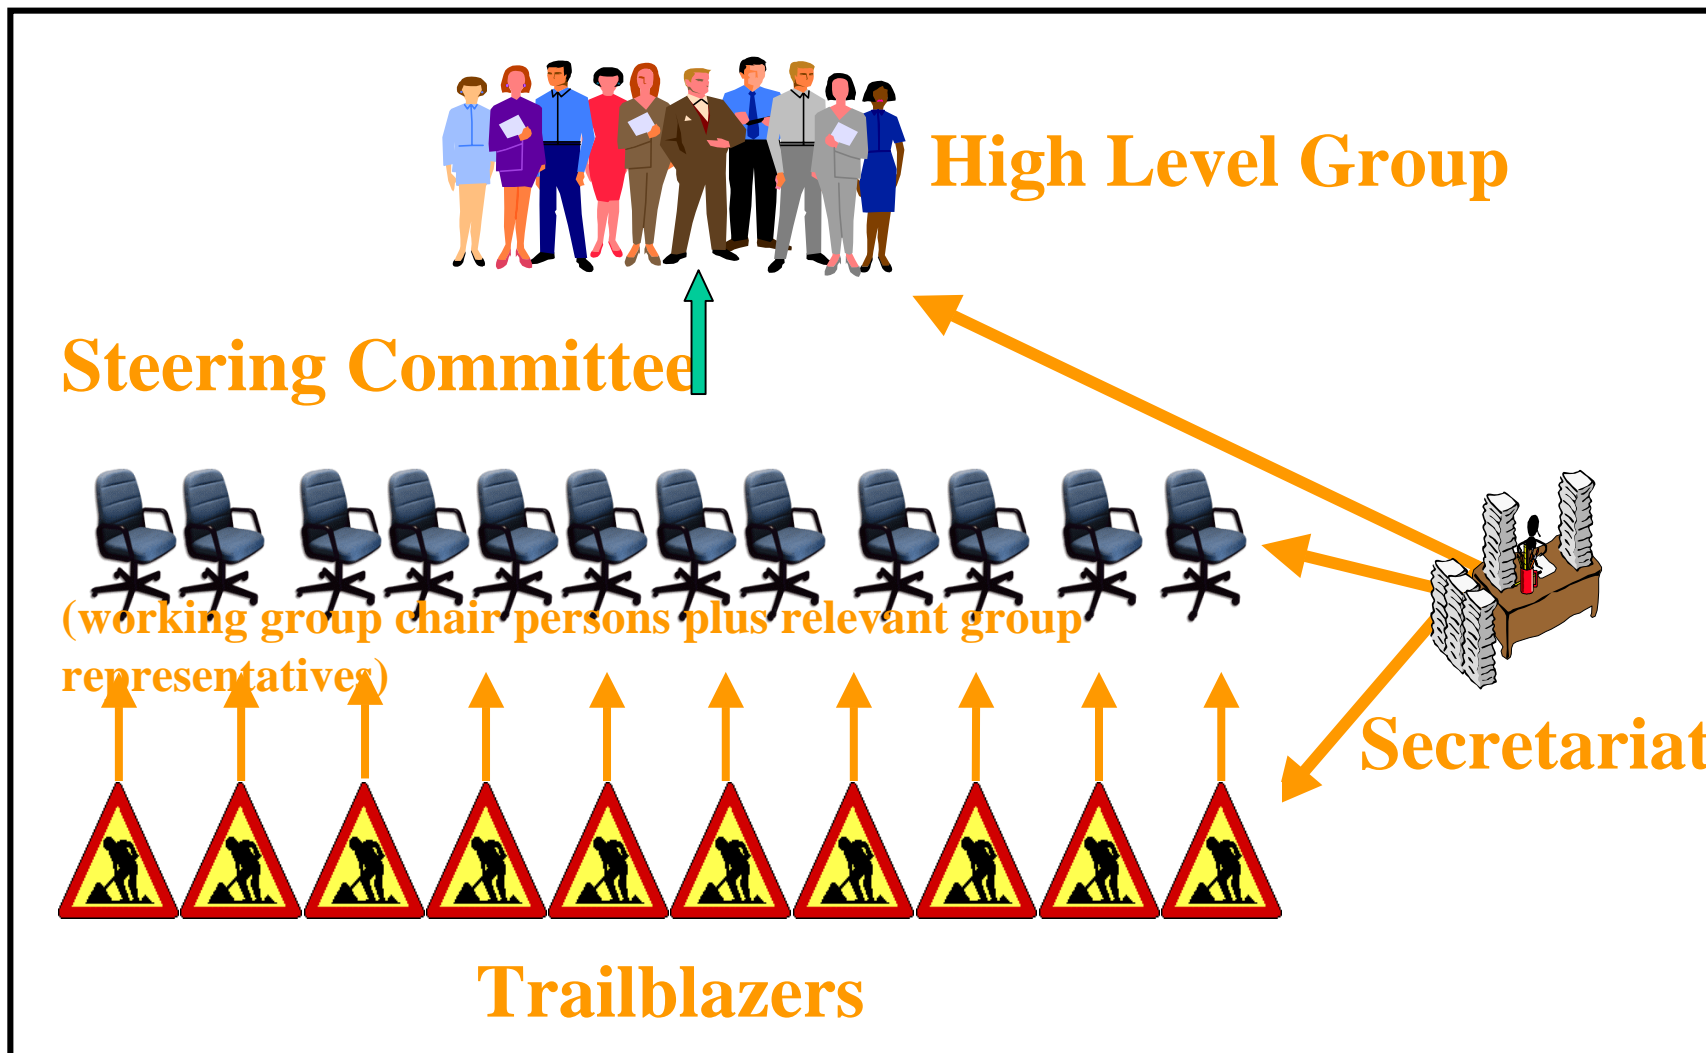

- 1 Public Identity
- 2 Identification & Authentication
- 3 Protection Profiles, security certification
- 4 Generalized card reader
- 5 E -payments (including purse, credit/debit, m-commerce)
- 6 Contact-less Smart Cards
- 7 Multi-application systems
- 8 User friendly & consistent interfaces
- 9 Public Transport
- 10 e-Government
- 11 Health
- 12 Advanced Electronic Signature

Logical structure Common Specifications
